

DESCRIPTION

Refit in 2019, luxury Mangusta yacht Jomar is looking forward to being purchased by her new Owner. Her streamlined profile slips quickly through the water, reaching thrilling speeds of 32 knots and she is equipped with 6 seakeeper stabilisers delivering high comfort. She is well suited for cruising the beautiful coastlines of the Mediterranean. An ultra-shallow draft allows her to visit a wide range of cruising grounds. There is a sheltered al fresco dining table with comfortable seating. Further aft are settees and expansive sunpads for making the most of the sunshine and views which can also be converted into a luxurious jacuzzi.

Able to welcome up to 10 guests, Jomar delivers the best of on-water living with impressive exterior deck spaces and an equally spacious interior. Her experienced crew of six will deliver the very best experience at all times. Another huge sunpad with optional shading, which is a popular space to retreat to, is located on the forward deck. A seating area with table on the forward deck is a private space for aperitifs or watching the sunset over the clear blue ocean. Water lovers will enjoy Jomar's line up of water equipment that includes her 13ft inflatable tender, SeaBobs, wave-runners, water skis and snorkelling gear for exploring beneath the waves. Back on board there is a good selection of gym gear to enjoy.

Jomar's stylish design is the work of Stefano Righini, with the elegant main salon a focal point for guests to gather in and relax. Her stylish interior includes Wenge gloss varnish and creamy leather, with Wenge parquet flooring. The salon's different spaces include a formal dining table for ten, settees, a pop-up television, entertainment system and bar. Large windows deliver outstanding views and an opening roof gives the option of opening up the salon to either sunshine or stars. Opulent materials include rich glossy woods, leather and marble, delivering a space that takes your breath away.

Five well-appointed cabins include the full beam Master, full beam VIP, double cabin, a twin cabin with optional pullman bed, and a media room that can be converted into another double as needed. The Master is warm and inviting with spaces including an entertainment nook, study and ensuite that includes its own steam shower. Every guest cabin is ensuite and equipped with a modern entertainment system.

KEY FEATURES

- Over 700,000 USD spent on refit in 2019
 - 6 seakeeper stabilisers
 - Top performing Mangusta with low fuel consumption
 - Additionally installed 1 Extra Battery Charger Dolphin 80 Ah
